

SANJANA VASANTH

9345783372 | sanjanaavasanth@gmail.com | Dhanalakshmi Srinivasan University

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science undergraduate with a strong passion for full stack software development and problem-solving. Skilled in building responsive, user-focused web applications using modern front-end and back-end technologies. Adept at working collaboratively in team environments and quick to learn new tools and frameworks. Eager to contribute to real-world projects while continuing to grow as a well-rounded software engineer.

EDUCATION

Dhanalakshmi Srinivasan University

2023–2027

B.Tech. Computer Science and Engineering

CGPA: 7.8

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, C
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Postman
- **Concepts:** Object-Oriented Programming, REST APIs, Responsive Design, Data Structures, DBMS, Operating Systems, Computer Networks

ACADEMIC PROJECTS

- **Full Stack E-Commerce Website** – *React.js, Node.js, Express.js, MongoDB*
 - Built a responsive e-commerce platform with product listing, cart, and checkout functionality using React.js and Node.js.
 - Implemented secure user authentication and authorization using JWT-based sessions.
 - Designed RESTful APIs for product, cart, and order management with full CRUD operations.
 - Integrated MongoDB for persistent storage and optimized query performance for a smooth user experience.
- **Student Management System** – *Java, MySQL, HTML/CSS*
 - Developed a web-based system to manage student records, attendance, and academic performance.
 - Implemented role-based login for admin and faculty with secure authentication.
 - Designed normalized MySQL database schema to support efficient CRUD operations.
 - Built a responsive interface ensuring accessibility across devices.
- **Online Food Ordering Platform** – *React.js, Express.js, MongoDB*
 - Created a full stack food ordering application with menu browsing, cart, and order tracking features.
 - Developed RESTful backend APIs to handle orders, users, and restaurant data with complete CRUD support.
 - Implemented user authentication and session management for secure order placement.
 - Ensured responsive, mobile-friendly design for seamless ordering across devices.

CERTIFICATIONS

- Full Stack Web Development (Training)
- Java Programming Fundamentals
- Python for Beginners
- SQL and Database Fundamentals
- Git & GitHub Essentials

STRENGTHS

Quick Learner | Team Player | Problem Solving | Adaptability | Time Management | Communication Skills
